

Introduction

DEMONSTRATION SECONDARY SCHOOL

About MCFDS

The MCF Demonstration School is set in one of the most beautiful natural landscape in Agbarha Otor, Ughelli North, Delta State, Nigeria. We provide a broad based education of international standard to meet global needs. Adequate facilities and equipments of outstanding quality, green and serene environment, access to internet facilities and safe recreational facilities have been provided to support the learning process.

The MCF Demonstration School is a place where the quest for excellence is constantly sought for in a changing world. It is also built to raise well rounded high achieving students who will be top flyers in tertiary education and research. At MCF Demonstration School, pupils and students will receive experiential Montessori type of education that will enable them relate to their environment, develop their God given abilities to His Glory and become useful members of the society.

At MCF Demonstration School, learning takes place with our pupils and students' instructional needs in mind. Instructional expectations are clear, pupil and student centred and achievable. They are transparent to the entire school community.

Why choose MCFDS?

Michael and Cecilia Foundation Demonstration Schools (MCFDS) has a high standard, as a result of this each practical subject has a standard laboratory, which enables the pupil and students to have a full grasp of the theoretical aspects of their subject. The school has first class facilities such as a state of the art Science laboratory for Physics, Chemistry and Biology, internet facilities, luxurious Sports and leisure centre, art centre (music, fine art and language), multipurpose hall, school buses and home economics laboratory (Clothing & textile and Food and Nutrition).

Michael and Cecilia Foundation Demonstration Schools (MCFDS) offer a fantastic range of extracurricular activities from the existing to the erudite. It includes curriculum trips, cultural expeditions and sports and music tours are pretty spectacular too. There are fewer numbers of pupils and students in each class which gives room for greater individual attention, better, faster and more targeted progress. Discipline and care are better too. This also decides who enters, who exists and when.

School buses are available for transportation of pupils and students from Agbarha junction to school.
